

Compact pressure switch for gases and air GW A4

**Pressure limiters
ÜB A4 and NB A4
Double pressure switches
GW A4/ GW A4**

DUNGS®

5.02

Technical description

The GW A4 pressure switches, the pressure limiters ÜB A4 and NB A4 and the double pressure switch GW A4 / GW A4 are adjustable pressure switches for automatic burner controls. They are suitable for switching a circuit on, off or over on changes in actual pressure value relative to the set reference value.

The reference value (switching point) is adjusted on a setting wheel provided with a scale. Test nipple integrated in metal housing as standard.

Application

Pressure monitoring in firing, ventilation and air-conditioning systems.
Suitable for gases of families 1,2,3 and other neutral gaseous media.

Approvals

EU type test approval as per EU Gas Appliance Directive. TÜV (German Technical Inspectorate) inspection for pressure switches of special construction as per TRD 604 and VdTÜV Technical Data Sheet, edition 100/1, as well as Class "S" as per EN 1854.

GW...A4	CE-0085 AO 0012
ÜB...A4	CE-0085 AO 0026
NB...A4	CE-0085 AO 0039

Approvals in other important gas-consuming countries. Special designs for the North American market with UL, FM and CSA registrations.

Functional description

Single-acting pressure switch or pressure limiter in pressure range. The pressure switches and/or pressure limiters work without using any auxiliary power.

GW A4 pressure switch

The control unit responds to pressure. If the set reference value is exceeded or undershot, the circuit is switched on, off or over.

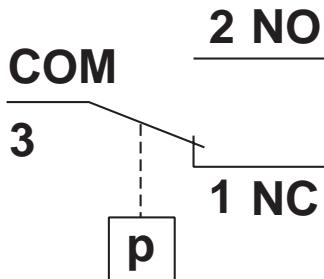

GW A4 switching function

As pressure rises:

1 NC opens, 2 NO closes

As pressure falls:

1 NC closes, 2 NO opens

ÜB A4, NB A4 pressure limiters

The control unit responds to pressure. Interlock is performed when the set reference value is exceeded or undershot.

The "Locked" switching state is indicated by a glow lamp.

Restart is only possible by activating the reset button on the setting wheel of the pressure limiter after the operating pressure is attained.

ÜB A4: Switches and locks when the set pressure is exceeded.

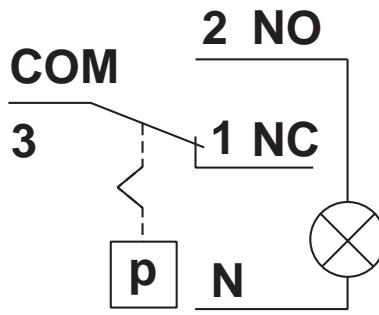

NB A4: Switches and locks when the set pressure is undershot.

ÜB A4 switching function

As pressure rises

2 NO closes, 1 NC opens

Glow lamp ON, locked.

Double pressure switch

GW A4 / GW A4

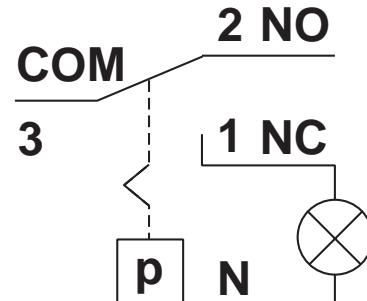

Combination of two GW A4 single pressure switches flanged together. The setting of the two reference values is performed separately and independently. This permits a combination of different reference value setting ranges. The same medium and pressure are applied to the two control units.

NB A4 switching function

As pressure falls

2 NO opens, 1 NC closes

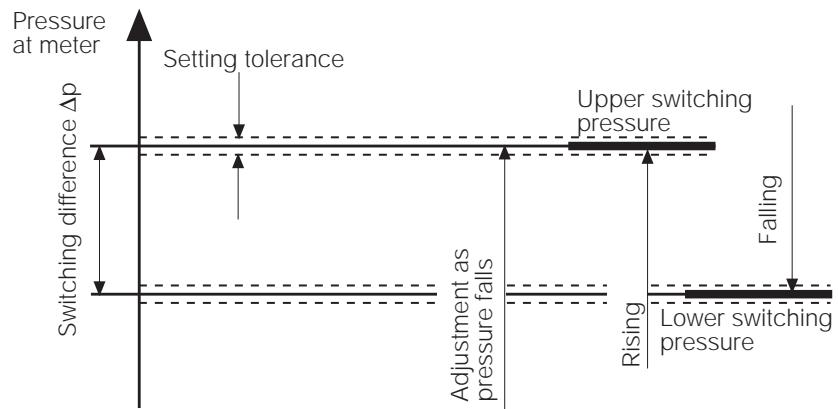

Glow lamp ON, locked.

Operating state

Definition of switching difference Δp

The switching difference Δp is the pressure difference between the upper and lower switching pressures

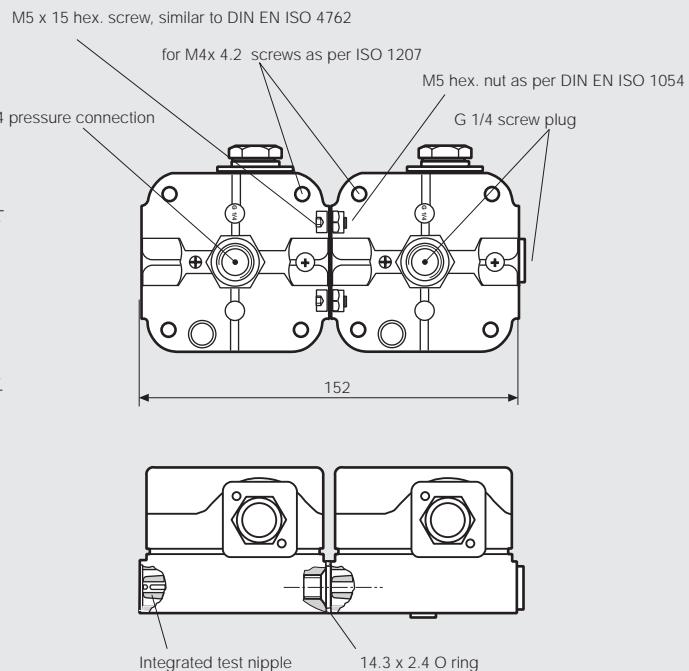

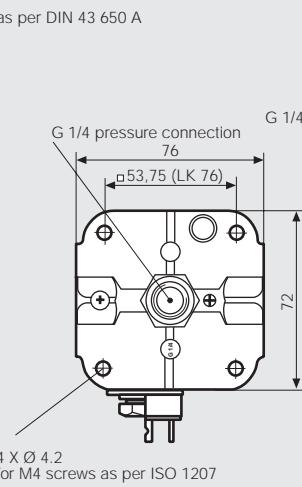

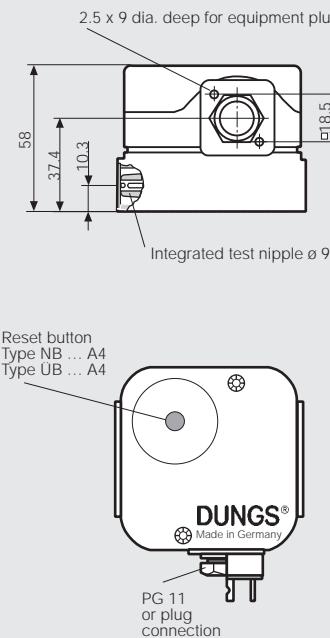

Specifications

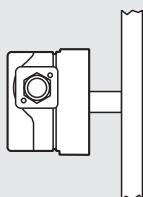

Max. operating pressure	NB, ÜB, GW 3 A4 - GW 150 A4 NB, ÜB, GW 500 A4	500 mbar (50 kPa) 600 mbar (60 kPa)
Pressure connection	Standard:	G 1/4 female thread on centre of housing underside as per ISO 228
	Special design:	additionally G 1/4 female thread on opposite measuring connection side
Measuring connection	Test nipple integrated in metal housing, ø 9	
Temperature range	Ambient temperature Medium temperature Storage temperature	-15 °C to +60 °C -15 °C to +60 °C -30 °C to +80 °C
Materials	Housing Switch Diaphragms Switching contact	aluminium die casting polycarbonate NBR basis Ag, fine silver, optional (Au)
Switching voltage	AC eff. min. 10 V DC min. 12 V	max. 250 V max. 48 V
Nominal current	AC eff. 10 A	
Switching current	AC eff. 6 A AC eff. 3 A AC eff. min. 20 mA DC min. 20 mA DC max. 1 A	at $\cos \varphi$ 1 at $\cos \varphi$ 0,6
Electrical connection	Standard: Special design:	at screw terminals via PG* 11 cable gland (* heavy-gauge conduit thread) plug connection for line sockets as per DIN 43 650 A, 3-pin with protective contact
Degree of protection	IP 54 as per IEC 529 (EN 60529)	
Setting tolerance	$\pm 15\%$ switching point deviation referred to reference value, adjusted as pressure rises, vertical diaphragm position	

Dimensions [mm]

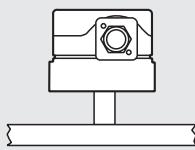

GW ... A4, ÜB ... A4, NB ... A4

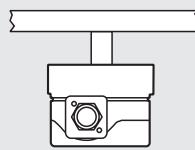

Installation position

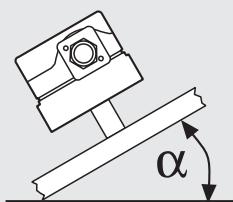

Standard installation position

When installed horizontally, the pressure switch switches at a pressure higher by approx. 0.5 mbar.

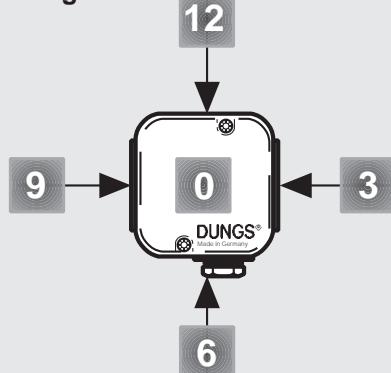

When installed horizontally overhead, the pressure switch switches at a pressure lower by approx. 0.5 mbar.

When installed in an intermediate installation position, the pressure switch switches at pressure deviating from the set reference value by max. \pm 0.5 mbar.

Einbaulage / Installation position / Position de montage / Posizione di montaggio	
	Standardeinbaulage Standard installation position Position de montage standard Posizione standard
	Bei waagerechtem Einbau schaltet der Druckwächter bei einem um ca. 0,5 mbar höheren Druck. In the horizontal installation position the switching pressure is increased by approx. 0.5 mbar. Monté horizontalement, le pressostat commute à une pression d'environ 0,5 mbar plus élevée. Con montaggio orizzontale il pressostato scatta ad pressione superiore di circa 0,5 mbar.
	Bei Einbau waagerecht über Kopf schaltet der Druckwächter bei einem um ca. 0,5 mbar niedrigerem Druck. When the pressure switch is mounted horizontally overhead, its switching pressure decreases by approx. 0.5 mbar. Monté horizontalement à l'envers, le pressostat commute à une pression d'environ 0,5 mbar moins élevée. Con montaggio orizzontale capovolto il pressostato scatta ad una pressione inferiore di circa 0,5 mbar.
	Bei Einbau in einer Zwischeneinbaulage schaltet der Druckwächter bei einem vom eingestellten Sollwert maximal $\pm 0,5$ mbar abweichenden Druck. When the pressure switch is mounted in an intermediate position, its switching pressure deviates by max. ± 0.5 mbar from the setpoint. Monté dans une position intermédiaire, le pressostat commute à une pression d'un maximum de +/- 0,5 mbar par rapport à la valeur de consigne réglée. Con il montaggio in una posizione intermedia il pressostato scatta ad una pressione diversa da quella nominale di max. $\pm 0,5$ mbar.

**Einbau
GGW...A4**

- Der Druckwächter wird direkt auf einen Rohrstützen mit R 1/4 Außengewinde aufgeschraubt. Bild 1.
- Nach Einbau Dichtheits- und Funktionskontrolle durchführen.

Auf vibrationsfreien Einbau achten! Bild 2.

**Installation of
GGW...A4**

- Screw the pressure switch directly on a tube socket with R 1/4 outer thread (see Fig. 1).
- After installation, perform a leakage and function test.

Ensure that the pressure switch is installed free of vibration (see Fig. 2).

**Montage
GGW...A4**

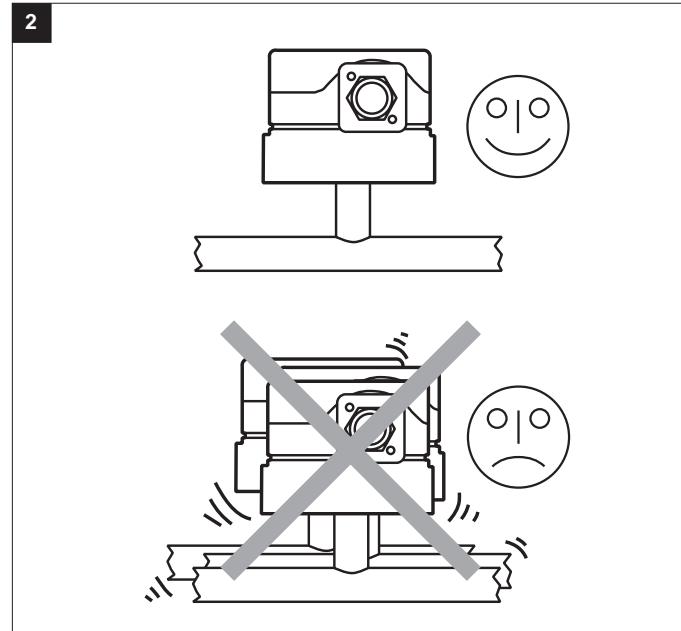

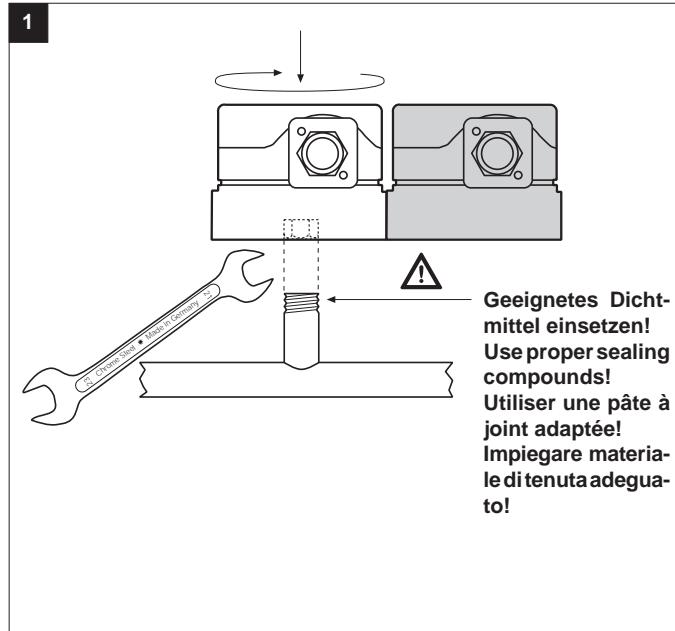

- Le pressostat peut se visser directement sur un piquage R 1/4" Fig.1.
- Après le montage contrôler la jonction et l'étanchéité.

Veiller à ce que l'appareil ne subisse pas de vibrations ! Fig. 2.

**Montaggio
GGW...A4**

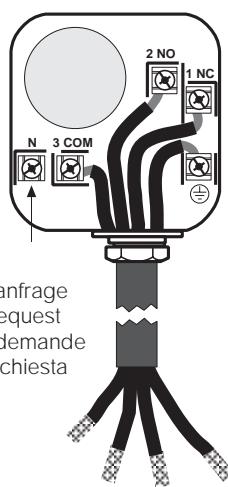

- Il pressostato viene avvitato direttamente su un tubo di sostegno con filetto esterno R 1/4" (Fig.1)
- Dopo il montaggio effettuare i controlli di tenuta e funzionalità.

Evitare possibilità di vibrazioni! Fig 2.

Zur Erhöhung der Schaltleistung wird bei DC-Anwendungen < 20 mA und 24 V der Einsatz eines RC-Gliedes empfohlen.

To increase the switching capacity, we recommend that you use a RC device for current values < 20 mA and 24 V d.c. applicatins.

Pour augmenter la puissance de rupture, l'utilisation d'un circuit RC est préconisée pour les applicatons à courant continu < 20 mA et 24 V.

Per aumentare la potenza d'inserrimento con applicazioni DC < 20 mA e 24 V, consigliamo l'impiego di un elemento RC.

Einstellung des Druckwächters
Haube mit geeignetem Werkzeug demontieren, Schraubendreher No. 3 bzw. PZ 2, Bild 1.
Haube abnehmen.

⚠️ Berührschutz ist nicht grundsätzlich gewährt, Kontakt mit spannungsführenden Teilen möglich.

Setting the pressure switch
Dismount the hood using a suitable tool, e.g. screwdriver no. 3 or PH1, Fig. 1. Remove hood.

⚠️ There is no protection against accidental contact. Contact with live parts is possible.

Einstellung GGW ... A4

Druckwächter am Einstellrad mit Skala **I** auf vorgeschriebenen Drucksollwert einstellen, Bild 2.

Anleitung des Brennerherstellers beachten!

Druckwächter schaltet bei steigendem Druck: Einstellung auf die linke Begrenzungslinie **↑I**.
Druckwächter schaltet bei fallendem Druck: Einstellung auf die rechte Begrenzungslinie **I↓**.
Haube wieder aufsetzen!

Setting GGW ... A4

Set the pressure switch at the setting wheel **I** to the specified pressure setpoint using the scale, Fig. 2.

Follow the instructions of the burner manufacturer!

Pressure switch switches as pressure increases: Set to left limit line **↑I**. Pressure switch switches as pressure reduces: Set to right limit line **I↓**.

Remount hood!

Réglage des pressostats

Enlever les vis du capot en utilisant un tournevis N°3. PZ 2, Fig 1. Enlever le capot.

⚠️ La protection n'est pas garantie, contact avec des pièces sous tension possible.

Regolazione del pressostato per
Smontare la calotta con un attrezzo adeguato, ossia cacciavite nr. 3 - rispettiv. PZ 2, figura 1
Togliere la calotta.

⚠️ Non è sostanzialmente garantita la protezione da scariche, è possibile il contatto con conduttori di tensione.

Réglage de GGW ... A4

Régler le pressostat avec son bouton gradué **I** à la valeur désirée Fig. 2.

Respecter les recommandations du constructeur du brûleur!

Le pressostat commute par pression montante: régler sur la ligne de limitation gauche **↑I**. Le pressostat commute par pression descendante: régler sur la ligne de limitation droite **I↓**. Remonter le capot!

Regolazione GGW ... A4

Tarare il pressostato, come in figura 2, sul valore di pressione nominale prescritto, agendo sulla rotella della scala graduata **I**.

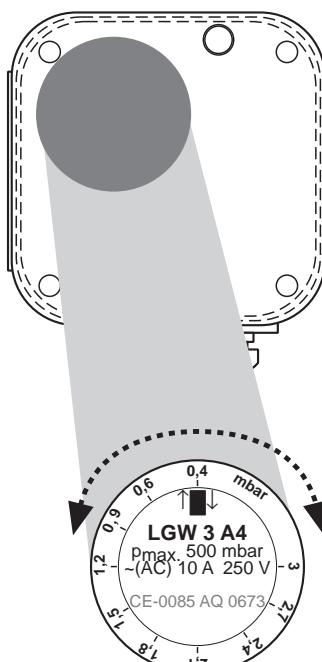

Prestare attenzione alle prescrizioni del produttore del bruciatore!

Il pressostato scatta con pressione in salita: regolazione sulla linea di delimitazione sinistra **↑I**. Il pressostato scatta con pressione in discesa: regolazione sulla linea di delimitazione destra **I↓**. Rimontare la calotta!

Arbeiten am Druckwächter dürfen nur von Fachpersonal durchgeführt werden.

Work on the pressure switch may only be performed by specialist staff.

Seul du personnel spécialisé peut effectuer des travaux sur le pressostat.

Qualsiasi operazione effettuata sul pressostato deve essere fatta da parte di personale competente.

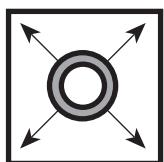

Kondensat darf nicht in das Gerät gelangen. Bei Minustemperaturen, durch Vereisung Fehlfunktion/Ausfall möglich.

Do not allow condensate to flow into the equipment. In case of sub-zero temperatures, malfunction or equipment failure may be possible due to icing.

Eviter l'entrée de condensat dans le pressostat, une prise en glace par température négative nuirait à son fonctionnement.

nell'apparecchio non deve infiltrarsi alcuna condensa. Alle temperature negative sarebbero possibili disfunzioni dovute a formazione di ghiaccio.

Rohrleitungsdichtheitsprüfung: Kugelhahn vor dem Druckwächter schließen.

Pipeline leakage test: close ball valve upstream of the pressure switch.

Contrôle de l'étanchéité de la conduite: fermer le robinet à biseau sphérique avant le pressostat.

Per la prova di tenuta delle tubature: chiudere il rubinetto a sfera davanti al pressostato.

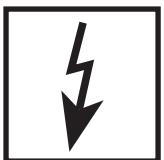

Nach Abschluß von Arbeiten am Druckwächter: Dichtheitskontrolle und Funktionskontrolle durchführen.

On completion of work on the pressure switch, perform a leakage and function test.

Une fois les travaux sur le pressostat terminés, procéder toujours à un contrôle d'étanchéité et de fonctionnement.

Al termine dei lavori effettuati su un pressostato: predisporre un controllo sia della tenuta che del funzionamento.

Niemals Arbeiten durchführen, wenn Gasdruck oder Spannung anliegt. Offenes Feuer vermeiden. Örtliche Vorschriften beachten.

Never perform work if gas pressure or power is applied. No naked flame. Observe local regulations.

Ne jamais effectuer des travaux sous pression et ou sous tension. Eviter toute flamme ouverte. Observer les réglementations.

In nessun caso si debbono effettuare lavori in presenza di pressione gas o di tensione elettrica. Evitare i fuochi aperti e osservare le prescrizioni di sicurezza locali.

Bei Nichtbeachtung der Hinweise sind Personen- oder Sachfolgeschäden denkbar.

If these instructions are not heeded, the result may be personal injury or damage to property.

En cas de non-respect de ces instructions, des dommages corporels ou matériels sont possibles.

La non osservanza di quanto suddetto può implicare danni a persone o cose.

Änderungen, die dem technischen Fortschritt dienen, vorbehalten / We reserve the right to make alterations in the course of technical improvement
Sous réserve de toute modification constituant un progrès technique / Ci riserviamo qualsiasi modifica tecnica e costruttiva
